GENERAL INFORMATION.

Tillotson Collegiate and Normal Institute was founded by the American Missionary Association, and is conducted under its auspices. It was opened on the seventeenth of January, 1881, the Association having partially sustained, for some years in Austin, a school taught by Mrs. Garland. The Association is much indebted to the liberality of Rev. Geo. J. Tillotson, of Wethersfield, Connecticut, for whom it is named, for the money for the purchase of the lot, and to his industry in collecting a portion of the funds for the erection of Allen Hall. This is a brick building, five stories high, containing rooms for at least seventy-five students, besides parlors, young ladies' sitting room, library, a beautiful and airy school room, large recitation rooms, dining hall, kitchen, etc.

BOARDING DEPARTMENT.

We wish to call special attention to the facilities for accommodating boarding students. The well lighted and well ventilated rooms are furnished with all that is necessary for the comfort and happiness of the boarders.

The regulations in this department of the school are intended to promote good scholarship and Christian character.

The school is made a home for those who attend. Not only their intellectual, but also their social, moral and religious culture will receive careful attention.

Students who enter this department are specially requested to be present at the opening of the term.

Young ladies are requested to provide themselves with suitable clothing for school wear, such as dark dresses and colored skirts.

All the clothing of both the young ladies and gentlemen should be clean, in order, and plainly marked with the student's name.

Each student is allowed washing to the amount of ten pieces per week. Young ladies will not be allowed to have

more than one dress or apron washed each week. Towels are included in the ten pieces; sheets and pillow cases are not included. Extra charge will be made for all over this number.

Young ladies will receive instruction daily in sewing and fancy work, and each young lady will be expected to keep her clothing neatly mended.

The wardrobes and rooms of all students are subject to inspection and regulation by the proper officers.

All that is needed for the rooms and table will be furnished at the beginning of the term, but students are expected to replace all articles destroyed or broken by them.

Meals for the boarders are provided at the regular hours. Only in cases of rare necessity will they be furnished at other times, and then only with the permission of the Matron.

General rooms for the students will be warmed free of charge. The cost of fuel will be charged for warming private rooms.

Parents of young pupils are advised to place spending money in the hands of one of the teachers, as it is found to be very much more judiciously spent than when given to the pupils.

Social intercourse between young men and young women is provided for to a limited extent under wholesome regulations and careful supervision.

Students are not allowed to leave the school grounds without permission. Students are also expected to consult the faculty before selecting private boarding houses.

RHETORICAL SOCIETY.

There is in successful operation "The Tillotson Rhetorical Society," the special aim of which is to train young men for public speaking. The meetings are held Friday evening of each week and are under the immediate direction of the President of the college.

Prominent among other societies is the "Tillotson Band of Hope," a temperance society, which has, since its organization, done much good, and has a very bright outlook for the future. The meetings are held the third Sabbath evening of each month, and are full of interest.

MUSIC.

Facilities for instruction in both vocal and instrumental music are ample.

THE LIBRARY.

A foundation for a good Library has been laid, and an earnest appeal is made to all interested in this department of our work, to furnish means, money or books, to complete what is greatly needed by the students.

DISCIPLINE.

Courtesy and mutual forbearance are expected of both pupils and teachers as indispensable to good discipline.

Students are subject to prompt suspension or discharge for an unsatisfactory course in respect to either study or conduct. Low or profane language will subject a student to discipline.

PUBLIC WORSHIP.

Prayers are attended in the Chapel every morning and evening, with reading of the Scriptures and singing, and all the students are expected to be present.

Public worship is held in the Chapel on Sunday, which all the students are required to attend, except such as have special permission to attend elsewhere. Such permission can be obtained only from the President.

WANTS.

"Tillotson," from the first, has been pressed for room. Every available means has been used to provide for the increasing attendance, for which the accommodations are now entirely inadequate. Its first and imperative "want" is a new dormitory.

The school being without endowments, is dependent upon the American Missionary Association for all support not derived from other sources. Our needs are those of young colleges—endowments, scholarships, reference books, maps, apparatus, etc. It is hoped that the time is not far distant when funds will flow into the treasury of the institution as freely as they do into colleges in other parts of the country.

EXPENSES.

Our terms for day pupils, per month, calendar:

Grammar Department.....	\$2 00
Normal and Collegiate.....	2 50
Boarding Department, including tuition, furnished room, light and washing, per month.....	12 00

There will also be an opportunity afforded a limited number of worthy and needy students to meet a part or all of their expenses, and thus the way is, for the first time, open for those desiring it, to gain a thorough and practical education, that shall fit them for any calling that they wish to pursue.

Donations received from May 1, 1883, to March, 1884.

We stated one year ago that "Tillotson is itself a donation. It stands as a crystalized expression of the loving thought, and the warm sympathy of the friends of universal education." What was then said is still true, and a little more so, if possible. The months have only made more clear the divine nature of our work, as evidenced by the continued favor of the people, and the well nigh unexampled prosperity of the Institution. We rejoice greatly. We have reason to. We rejoice in the kindly sympathy of the people of Texas, especially of Austin. We rejoice in the still more widely separated circle of friends who have been aiding us during the past. God cause the bread which they have cast upon the waters, to return to them multiplied a hundred fold. And may their number be increased till what is needed shall be supplied, and the promise of to-day be more than realized.

Our hearts say: *God bless you who have so generously aided us, not only during the past year, but since "Tillotson" has had a being.*
